

## ENEOS Import Series

ENEOS Import Series is transmission fluid engineered for Asian vehicles, including Toyota, Lexus, Honda, Acura, Nissan, Infiniti, Hyundai, Kia and Mitsubishi, where “genuine” fluids are specified.

Formulated with selected high-quality base oils combined with unique additives, ENEOS Import Series is developed through the same advanced technology used for supplying automotive lubricants to the majority of Asian automobile manufacturers.

ENEOS Import Series provides outstanding compatibility and performance for all of the service fill requirements for your vehicle.

ENEOS Import Series is created at the same factory where we blend OE lubricants for major Asian auto makers.

JX Nippon Oil & Energy is the leading innovator and supplier of automotive lubricants to the majority of Asian automobile manufacturers.
