

ENEOS ECO SERIES

OE QUALITY FLUID FOR THE VAST MAJORITY OF TRANSMISSIONS

ENEOS products use the advanced technology developed in decades-long partnerships while creating factory fill fluids for Asian OEMs. Our OE expertise allows us to successfully meet a wide array of specifications while providing a true low-viscosity, premium-quality product geared toward future vehicle requirements.

ENEOS ECO SERIES
BROAD COVERAGE
TRANSMISSION FLUIDS

ENEOS ATF OE+
Part #: 3222-300

ENEOS ECO CVT FLUID
Part #: 3026-300

- Few, if any, other current multi-vehicle fluids meet the low viscosity standards for today's vehicles.
- Improves fuel economy in automatic transmissions.
- Meets specs for Toyota/Lexus WS, T, T-II, T-III, T-IV; Honda/Acura DW-1, Z-1 | Honda Type 2.0, 3.0, 3.1; plus majority of ATF applications for Hyundai/Kia/Mitsubishi, Mazda, Nissan/Infiniti, Subaru, and Ford /GM*

- CVTs are installed in over 2.0 million North American vehicles as of 2025.
- Meets most CVT specifications.
- Provides added fuel efficiency, improved accelerating performance, and noise reduction.
- Meets specs for Nissan CVTF NS-2 and NS-3, Honda CVTF, Subaru i-CVTF, and more*
